

Learning Goal #3: Communication Skills

Communication Skills: Effective communication is essential in many business fields particularly those our students are likely to enter – corporate financial management and public accounting including auditing and tax services. In each of these areas professionals need to communicate information within their organization and potentially to clients and other external users. This learning objective has three components:

- Clearly express the purpose/main point of the assignment
- Effectively support the main point/conclusion of the assignment with relevant evidence
- Overall presentation of assignment is professional

Procedure: Assessments are rotated between TAX 620, ACCT 622 and ACCT 640, and use course embedded assignments.
