

REAL ESTATE MANAGEMENT

Institutional investment in real estate prompted a spike in demand for knowledgeable property managers who understand how to increase property value and generate a return on investment. As a result, Drexel offers this degree to provide the critical thinking skills, business acumen, technological competencies, social responsibility awareness and leadership skills necessary to address the current and ever-changing environment of property management and its complex asset types.

DEGREE OPTIONS

- BS in Business Administration – Major in Real Estate Management and Development
- BS in Business Administration/MBA
- Minor in Real Estate Management and Development

COURSEWORK

- Real Estate Finance
- Real Estate Investment and Asset Management
- Real Estate Law
- Real Estate Management
- Sustainability in the Built Environment
