

MASTER'S IN ECONOMICS

By completing Drexel LeBow's STEM-designated *Master of Science in Economics*, you'll learn from research-active faculty and leave with more than knowledge from a textbook — you'll also benefit from the University's over 100-year history of experiential education. Through individualized career services and hands-on learning opportunities, such as international residences, internships and industry consulting, you'll develop practical skills that will help you excel in the field.
