

# *PhD in Operations and Business Analytics*

## PROGRAM

- Two tracks are offered — operations management and business analytics
- Flexible course offerings in the first two years
- Operations track offers courses in Operations Research, Statistics, Game Theory and seminars
- Business Analytics track offers courses in Operations Research, Statistics, Computer Science and others depending on research interest

## FACULTY

- **Accomplished researchers in areas of Business Analytics, Management Information Systems, Operations Management, Operations Research and Statistics.**
- **Faculty members have publications in top academic journals** such as *Information Systems Research, Journal of Management Information Systems, Management Information Systems Quarterly, Management Science, Manufacturing and Service Operations Management, Marketing Science, Mathematical Programming, Mathematics of Operations Research, Production and Operations Management, Operations Research* and more.
- **Opportunity for students to co-author research papers with faculty members, other students and alumni:** PhD students frequently produce quality academic publications before graduating from the program.
- **Seminar series featuring speakers from top research institutions.**

## FUNDING

- Financial support for five years including tuition and fees, health insurance and a stipend.
- Funding available to facilitate students' participation in conferences, including travel expenses.
- Dedicated office space, access to research resources and Drexel's library, and fellowship opportunities that offer an increased annual stipend.

## SETTING

Our campus is in University City, in the heart of metro Philadelphia, an area known for its diversity, lively business and restaurant scenes, and cultural and sporting attractions. In addition to our own seminar series, proximity to the Philly Fed, University of Pennsylvania and the Wharton School affords students the opportunity to attend a variety of additional seminars and conferences.
