

Unleash Your Potential. Lead With Excellence.

CORPORATE AND EXECUTIVE EDUCATION SOLUTIONS

Organizations today are experiencing ever-shifting workforces and workplaces, managing rapid advancements in AI and emerging technologies and systems, and engaging with customers who are paying greater attention to brand values and cultures.

In the face of rapid change, ensuring your employees can adapt quickly and remain committed to the goals of your organization is even more critical.

Drexel LeBow's Corporate and Executive Education Solutions (CEE Solutions) design custom education programs that prepare organizations to retain top talent, enhance their competitive position, maintain effective operations and profitability, and build capacity for long-term sustainable growth.

THE DREXEL DIFFERENCE

Experiential learning has been at the core of Drexel's educational model for over 100 years. We combine this practical, real-world approach with the University's extensive interdisciplinary research expertise to deliver comprehensive and effective training solutions.

Certificate and degree programs are taught by award-winning faculty who are experts and innovators in their fields. Grounded in Drexel's rigorous research tradition, our faculty also have a long history of fostering connections with industry leaders, making them deeply knowledgeable about today's workforce trends and challenges.
