In Drexel LeBow's BSBA in Health Administration, you'll gain a strong foundation in business principles while developing specialized knowledge in healthcare management. This program combines business with focused study of the U.S. healthcare system, equipping you with the skills to improve patient outcomes and drive organizational success. Through hands-on learning, you'll graduate with real-world experience and a competitive edge in the healthcare industry.

Degree Options

- BS in Business Administration — Major in Health Administration
- BSBA in Health Administration/Master of Health Administration

Coursework Focus Areas

- Introduction to Health Systems Administration
- Healthcare Policy, Regulation and Law
- Nonprofits and Healthcare
- Applied Healthcare Marketing, Administration and Leadership
- Management of Health Services
- Leadership in Health Services Administration
- Ethics in Healthcare Management

Career Outlook

A business degree with a major in health administration will prepare you to manage and improve healthcare delivery across a range of organizations. You'll develop skills in operations, leadership and data analysis to support effective decision-making and high-quality patient care. Examples of careers include healthcare operations analyst, clinical services manager, and revenue cycle or insurance specialist.
